

Supply Chain

Pembrokeshire and the surrounding area has an extensive shipping, engineering and fabrication supply chain. Brief summary details are given below. (Please note that this is not an exhaustive list and should only be used as a rough guide - details are given impartially.)

Shipping, Haulage & Lifting

Company	Services
AAA Wide Load Escorts 01646 680695	Detailed route planning for all deliveries, pilot car provision for all abnormal loads.
<u>Ainscough</u>	Range of mobile and crawler cranes.
<u>Ashdale Lifting</u>	Precision machining and fabrication, refurbishment and testing of valves, test, repair and inspection lifting equipment, engineering supplies, plant installation and commissioning.
<u>Cory Brothers</u>	Shipping agent.
<u>Davies</u>	Hire of mobile, all terrain and crawler cranes, ranging from 8 ton to 400 ton capacity.
<u>Denholm-Wilhelmsen</u>	Shipping agent.
<u>GAC</u>	Shipping agent.
<u>Graypen</u>	Shipping agent.
<u>Haven Marine Services</u>	Ship repair, maintenance, dry dock, marine and mechanical engineering service.
<u>Inchcape</u>	Shipping agent.
<u>Leask Marine</u>	Vessel charter, commercial diving and marine construction services.
<u>Mainstay Marine Solutions</u>	Bespoke individually designed steel or aluminium vessel, wind farm support vehicles and fast aluminium RHIBs, ship repairs.
<u>Port of Milford Haven</u>	Waterway management, pilotage, marine simulator
<u>S5</u>	Shipping agent.
<u>SMIT</u>	Diverse fleet of harbour support services. Offer secure accompaniment to shipping.
<u>SOAS</u>	Safety cover operations using RHIB or hard boats to support construction operations.
<u>Svitzer Tugs</u>	Specialist tug services including towage, salvage, emergency response (global leader). 400+ vessel fleet.
<u>Williams Shipping</u>	Flat top barges, pontoons (onsite equipment up to 1750t), tugs, work boats.

Engineering/Construction

Company	Services
<u>Austwel</u>	Civil engineering and buildings maintenance contractor.
<u>Cape</u>	Process engineering, project management, design, electrical and mechanical engineering, health and safety.

<u>GD Harries</u>	Quarried aggregates. Asphalt production, concrete and screed production.
<u>HDH Hydraulic Engineering Services</u>	Mobile hydraulic, engineering component, lubricant replacement service.
<u>Hornbill</u>	Process control, instrumentation and electrical services, design, supply, manufacture, installation, commissioning, maintenance.
<u>Jenkins & Davies Engineering</u>	Project management, erection, installation and fabrication of steelwork and pipework.
<u>JOP</u>	Civil engineering contractor including cementitious and epoxy grouting.
<u>Kingswood Engineering</u>	Mechanical and marine engineering, fabrication, diamond core drilling, pipe work.
<u>Ledwood Engineering</u>	Mechanical engineering, design and project management, work packages from fabrication, construction, installation. Delivery of challenging and diverse engineering, procurement and construction contracts (EPCs). Bespoke design solutions for terminal construction and maintenance, offshore wind sites and marine infrastructure.
<u>M & A Engineering</u>	Onsite machining and machine shop, controlled bolt tensioning, shaft manufacture, dynamic balancing, pump refurbishment, laser alignment services (bolts, shafts, level).
<u>Mainstay Marine Solutions</u>	Marine engineers (see also Shipping, Haulage & Lifting)
<u>Pembroke Port</u>	Deep water cargo operations with onsite capacity for fabrication, storage and laydown.
<u>Port Engineering</u>	Steel fabrication, general engineering.
<u>Quantum Geotechnical</u>	Geotechnical and civil engineering contractor, ground investigations, lab and in-situ testing, soil nailing, ground anchors, mini-piling, grouting, general civil works.
<u>Rhyal Engineering</u>	Steelwork, pipework, fabrication, special projects.
<u>Trueform</u>	Reinforced and precast concrete specialists.

Consultancy

Company	Services
<u>InSite</u>	Project design and engineering, operational services, technical consultancy.
<u>Marine Energy Wales</u>	Environmental assessment, surveying and management, technical and operational support, public and stakeholder communications.
<u>Marine Space</u>	Spatial planning, monitoring survey design, data management, biodiversity management services.

Onward support

There is an extensive onward supply chain locally which addresses the needs of the engineering, electrical and building services providers. This includes: safety, training, site services, specialist wholesalers and stockists, office supplies and services.
